Re: ADDENDUM 3 TO THE REQUEST FOR PROPOSALS FOR CONTRACT OPERATIONS AND MAINTENANCE, MANAGEMENT, AND PROGRAM MANAGEMENT OF THE WASTEWATER TREATMENT FACILITIES OF THE CITY OF BINGHAMTON & VILLAGE OF JOHNSON CITY, NEW YORK

Date: May 28, 2019

Through this Addendum 3 to the above-referenced Request for Proposals [the "RFP"], please be advised as follows:

1. At the mandatory pre-bid conference for this RFP held on April 29, 2019, you were orally advised of a change to the scoring criteria provided in Section I.2. for the Cost factor. I am writing to confirm that the criteria for that factor as set forth in the RFP is deleted and that it is replaced with the following language: "The low bidder will receive 10 points. The other bidders will receive 10 points times the low bid divided by their bid."
2. The form whereon each Proposer shall state its Price proposals as presented in the RFP is deleted and is replaced with the following form:

5-Year Term with Option for 5-Year Extension

Plant OM&M Cost \$ _____

TPS, Outfall and Stream Bank
Improvement OM&M Cost \$ _____

IPP Cost \$ _____

Total 5-Year Price
(2-Months Transition Period
and 58-Months Full OM&M) \$ _____

10-Year Term with Option for 5-Year Extension

Plant OM&M Cost \$ _____

TPS, Outfall and Stream Bank
Improvement OM&M Cost \$ _____

IPP Cost \$ _____

Total 10-Year Price
(120-Months Full OM&M) \$ _____

3. To the extent reasonably possible, the Owners have prepared answers to questions and compiled responses to requests for documents which potential proposers have presented pursuant to the terms of the RFP. A summary of all questions and requests and the Owners responses thereto is attached on the enclosed thumb drive as are available documents; please note that the draft service agreement is also included in that summary for review and commentary thereon for filing as part of any proposal.

Respectfully,

City of Binghamton,

Michael Dervay – Purchasing Agent
